Therefore, the Board will focus on its statutorily mandated responsibilities as expressed within its mission statement and will also seek to establish and maintain regular communications and coordination of efforts with the Secretary of Natural Resources in regards to initiatives of the Administration and government-wide procedural and process-related requirements. The Board will pursue the following actions to insure compliance with initiatives of the Administration and government-wide requirements.

- A. The Board directs the Chairman via this governance manual to communicate regularly with the Secretary of Natural Resources to keep him/her informed of Board initiatives and to receive updates on issues and directives from the Administration and the requirements of government-wide procedures.
- B. The Board will solicit input from the Secretary of Natural Resources when it develops performance plans for the Director and as it evaluates the Director's performance. The Board will specifically request that the Secretary of Natural Resources forward information regarding special initiatives or performance measures required by the Governor so that they can be incorporated into the Director's performance plan.
- C. The Board will place requirements upon the Director to meet regularly with the Secretary of Natural Resources to discuss issues relative to the Department and to provide regular, written updates to the Secretary of Natural Resources regarding initiatives, programs, and activities of the Department. The Director will provide summaries of those reports to the Board, and the Board will solicit feedback from the Secretary of Natural Resources as to the Director's performance in this regard.

VI. RELATIONSHIP BETWEEN THE BOARD AND DEPARTMENT OPERATIONS

All authority delegated from the Board to the staff will be delegated through the Director; thus, all authority and accountability of Department operations and staff performance rests with the Director.

- A. The Board will instruct the Director to achieve certain results for its constituents through the development of Ends policies. The Board will institute limitations on the Director's latitude for accomplishing these Ends via the establishment of Executive Limitations policies. These policies will spell out the practices, methods, conduct, and other "means" that are available to the Director as he directs the operations of the department.
- B. As long as the Director adheres to a reasonable interpretation of the Ends and Executive Limitations policies, he/she is authorized to create additional policies, make all decisions, take all actions, establish all practices, and develop all activities.
- C. The Board recognizes that changes to its Ends and Executive Limitations policies will shift the boundary between the Board and the Director as well as the Director's latitude in executing

the Department's operations. The Board will recognize delegations that are in place at such times and will respect and support the Director's choices.

- D. The Director is bound only to decisions of the Board acting as a body.
- E. Decisions or instructions of individual Board members, officers, or committee are not binding on the Director except in rare occasions when the Board has specifically authorized such exercise of authority.
- F. The Board will routinely monitor the Department's performance relative to the Ends and Executive Limitations policies and will consider the results in the evaluation of the Director's performance.

VII. COMMITTEES

A. STANDING COMMITTEES

The Board may establish standing committees that it deems necessary to assist it in carrying out its responsibilities and fulfilling its mission. The purpose of a standing committee must be clearly stated to avoid overlap in responsibilities with other Board committees, the Board's officers, and the Director.

After it is instituted, a standing committee shall remain in existence until dissolved by appropriate action of the Board. Additionally upon establishment, a standing committee shall develop a committee charter that will include a purpose statement, an overview of the committee's responsibilities and duties, its operating procedures, and its composition. The committee charter will be presented to the Board for review and approval and will be included in the Board of Director's Governance Manual.

All standing committees of the Board are subject to the following principles and guidelines, unless specifically given other guidance by vote of the Board:

1. Standing committees are to assist the Board in fulfilling its responsibilities, and in doing so, will frequently interact with the Department's staff. In those interactions, the committees may offer advice or suggestions to staff, but will not provide specific instructions or directions to staff.
2. A standing committee may not act or speak for the Board, unless the Board specifically authorizes such representation for specific purposes.
3. Standing committees will normally focus on the development of policy within specific topical areas and will provide policy alternatives and associated implications to the Board for deliberation and action. These committees will not intrude into operational issues or decision-making that are in the Director's realm of responsibilities.

4. All standing committees shall notify all members of the Board regarding the time and place of all committee meetings. Any Board member may attend the meeting of any standing committee and participate in its discussions; however, only members of the committee may vote on items under consideration by that body.

The Board has established standing committees as follows:

1. **FINANCE, AUDIT, AND COMPLIANCE COMMITTEE**

The purpose of the Finance, Audit and Compliance Committee is to conduct initial and continuing reviews of issues regarding internal and external audits, and the financial conditions, both short- and long-term, of the Department. Audit reviews will include compliance with Board policies, accounting practices and auditing procedures, adequacy of financial reports and disclosures, the Director's expenses, and violations of law. Financial evaluations will focus on implementation of the Department's annual budgets as approved by the Board as well as the Department's long-term funding needs. The Committee will develop and submit reports, draft policies, and/or recommendations regarding audits and the finances of the Department to the full Board for its consideration.

2. **EDUCATION, PLANNING, AND OUTREACH COMMITTEE**

The purpose of the Education, Planning, and Outreach Committee is to evaluate its educational, planning, and outreach needs relative to the statutory mandates, mission, and strategic plans of the Board, and to develop and submit reports, draft policies, and recommendations regarding those needs, as necessary, to the full Board for its consideration. The Committee will regularly evaluate the Department's mission, the Board's policies, its long-term planning requirements, and Governance Manual and develop recommendations regarding mission and vision statements, policy and governance changes, and strategic planning for the Board. The Committee will also investigate reported breaches of The Board's Code of Ethics and Conduct and report its findings to the Board.

3. **NOMINATIONS COMMITTEE**

The Nominations Committee will interact with the membership of the Board to develop candidates for the officers of the Board for consideration by the full Board. The Committee will report its slate of candidates during the second Board meeting in the calendar year.

4. **WILDLIFE AND BOAT COMMITTEE**

The purpose for the Wildlife and Boat Committee is to evaluate the long-term needs of the Commonwealth's wildlife and boating resources and to draft recommendations and/or policies addressing those needs for consideration by the entire Board and to serve as the Motorboat Committee in accordance with §29.1-701 of the Code of Virginia. This Committee will also assess the needs, desires, and impacts of the users of these resources and provide guidance to the full Board as described above. **(this section amended effective April 1, 2008)**

B. ADVISORY COMMITTEES

The Board may appoint advisory committees as it deems necessary to assist the Board in fulfilling its responsibilities on behalf of the citizens of the Commonwealth for the proper stewardship of the state's wildlife and boating resources and the operation of the Department. The Board will establish the purpose, composition, and qualifications for membership of each advisory committee prior to its creation. The recommendations of an advisory committee are not binding upon the Board. The Board may instruct the Director to provide staff support to an advisory committee, but the committee will provide its reports and/or recommendations directly to the Board for its consideration.

C. SPECIAL (AD HOC) COMMITTEES

The Board may establish special (ad hoc) committees, as needed to carry out specified tasks. A special committee shall cease to exist upon completion of its assignment and presentation of its final report and/or recommendations to the Board. A special committee may not be established to carry out

an assignment that overlaps existing functions of any standing or advisory committee.

VIII. RELATIONSHIP WITH THE PUBLIC

The General Assembly established the Board of Game and Inland Fisheries to represent the public's interest in the wildlife and boating resources of the Commonwealth and to oversee the operations of the Department of Game and Inland Fisheries. The Governor appoints the members of the Board to serve as stewards of those resources and the Department. As the public's trustee in these matters, the Board will conduct its business in an environment that not only allows, but also invites, public scrutiny. The Board of Game and Inland Fisheries shall operate in full compliance with both the letter and the spirit of the Virginia Freedom of Information Act (VFOIA) and the State and Local Government Conflict of Interests Act.

A. PRINCIPLES

1. The Board and the Department shall maintain open communications with the public, its constituent groups and partners in wildlife conservation, and the news media.
2. The Board and the Department will disseminate information, as appropriate, to the public through appropriate channels in an expeditious manner and will, when justified, protect the confidentiality of its transactions on the public's behalf.
3. All meetings and records of such meetings of the Board shall be open to the public except for such meetings that are closed pursuant to, and in accordance with, the provisions of Title 2.2, Chapter 37 of the Code of Virginia.
4. Board members will not engage in discussions with the public or the press about investigations or litigation. All attempts to pursue such contacts, oral or written, shall be strongly discouraged. Each member shall keep a record of any such occurrences and shall forward notice of them to the Director, who will seek guidance from the Office of the Attorney General when appropriate.
5. Because its regulatory actions are subject to review, Board members receiving *ex parte* contacts during official, public comment periods for pending regulatory

actions will encourage the contacting party to place his or her comments into the public record and shall refer all such contacts, in writing, to the Director for inclusion in the public record.

B. COMMUNICATIONS WITH THE MEDIA

1. The Board speaks through its resolutions, and Board members are free to communicate with the media regarding those decisions.
2. The Board may designate the Chairperson or other member to be the spokesperson for specific issues or resolutions and will refer the media to the designated spokesperson in those cases. The Board herewith authorizes the following delegation:

IX. OPINIONS OF THE ATTORNEY GENERAL

According to §2.2-505.A of the Code of Virginia, The Board Chairperson or the Director shall make written requests for official advisory opinions from the Attorney General. The Director shall receive approval from the Board Chairperson, and where feasible, from the full Board of Directors before requesting an official opinion from the Office of the Attorney General.

X. AMENDMENT OF GOVERNANCE MANUAL

The Governance Manual of the Board of Game and Inland Fisheries may be amended by a majority vote of the Board as long as the proposed amendment is provided to the Board at its preceding, regular meeting.

If urgent and/or extraordinary circumstances warrant immediate action by the Board, the Board may amend an element or provision at the meeting when the proposed amendment is introduced, provided that the Board approves such action prior to consideration of the proposed amendment.

In addition to the foregoing provisions, the Education, Planning, and Outreach Committee shall evaluate the Governance Manual every three years to ascertain whether refinements or changes are needed. The Committee shall report its findings and recommendations to the Board, which will take action on the recommendations at its next regularly scheduled meeting.

XI. VALIDITY OF GOVERNANCE MANUAL

If any of the policies or provisions of the Governance Manual are found to be in conflict with any provisions of the Code of Virginia, the statutory provisions of the Code shall apply instead of the policy or provision in the Governance Manual. In the event that any element or provision of the Governance Manual is invalid due to a conflict with the Code of Virginia, the remaining provisions of the Governance Manual shall continue in full force and effect. The Board will initiate its process to amend its Governance Manual to conform to the provisions of the Code at its next regularly scheduled meeting according to the provisions in article IX above.
