

Nottoway River

Access Sites

The following are three of the better floating trips worth trying on the river:

Cutbank Bridge (Rt. 609) to Double Bridge (Rt. 619) (11.5 miles)

This is a trip for canoes only, as the river reaches the Fall Line in the last three miles of the trip. Put in at the Rt. 609 bridge and take out at the VDGIF boat ramp at Rt. 651, just past the Rt. 619 bridge. A few class I and II rapids must be negotiated, but should not present a problem.
