

THE VIRGINIA DEPARTMENT OF GAME AND INLAND FISHERIES CHRONIC WASTING DISEASE SURVEILLANCE 2015-2016

The Virginia Department of Game and Inland Fisheries (VDGIF) is once again conducting CWD surveillance during the 2015-2016 hunting season. We strongly encourage hunters who are successful on days other than those listed as mandatory (November 14th and 21st) to volunteer the head and neck from their deer for sampling by bringing it to one of our self-service refrigerated drop stations.

INSTRUCTIONS FOR HUNTERS VOLUNTARILY SUBMITTING DEER HEADS FOR CWD TESTING

1. Submit heads from adult deer ONLY. (No fawns)
2. Submit at least 4 inches of the neck with the head. (head and neck are required for sampling)
3. If you plan to mount a buck's head, please do not submit it, as we must keep the head.
4. If you do not intend to mount your head, but would like to remove the antlers and skull plate, feel free to do so before submitting the head. We can still obtain a sample.
5. Head must be as fresh as possible: 1-2 days after death, but only if kept cool, not frozen.
5. Please fill out the data card per instructions posted at the self-service location.
